Version 1.2/23

Toccare Mini Lite Intelligent Half Loop Fire Alarm Control Panel (700-100L)

The Toccare® Touch Screen Lite Panel is the Toccare panel's smaller brother. This fire alarm control panel comes in a smaller package, yet still delivers reliable usage for the end-user.

The panel offers a clean and even more minimal design than most fire alarm control panels. It can fit into any building and offers a great aesthetic which you will be proud to show off.

The Lite panel works well with a wired or wireless system and will work seamlessly with either. Offering efficient solutions and a new age in the fire safety industry.

HARDWARE SPECIFICATION

- 32 bit microprocessor addressable control panel
- 1 addressable loop with digital protocol
- Dedicated single loop
- 120 addressable devices per loop
- Graphic touch screen display (480 x 272 TFT 4 3")
- 16 front LEDs

- Monitored power supply output 24Vdc 500mA with short circuit protection
- Dimensions: 315mm x 330mm x 82mm
- Power supply 230Vac

KEY FEATURES

Compact
The Lite panel comes in a compact, convenient package, creating an attractive look which still includes excellent features.

Ease of Programming
Auto-learn facility and fully configurable via the touch screen including panel cause and effects.

Touch Screen
It's made to be touched - the first certified fully touch screen panel with an easy-to-use interface.

Cloud Programming
The unique cloud-based panel configuration storage allows for remote viewing and easier technical support.

Brand Identity
Your own full colour, high definition logo can be implemented into the fire panel display.

Following the success of the Toccare Panel, the Toccare Lite is now the second fire panel to run TI Core Protocol, making Toccare systems truly unique. This is also the second panel to be totally touch screen and certified to EN54-2 and EN54-4 standards. The Toccare Mini is small, compact, attractive, fast and easy to use, giving the end user an excellent experience when operating the panel. Part of the design ethos of the Toccare Lite panel, it is able to fit into any building and pass as a piece of the decor. The panel is sleek and small, yet powerful and able to work as an attractive addition to any prestigious business or building. With no protruding buttons, the panel is flat and stylish.
