

Eurotech Intelligent Base Sounder (100-2015V)

The Eurotech slave platform base sounder is an aesthetically pleasing low profile 32 tone audio/visual base sounder suitable for all devices in the Eurotech range of intelligent detectors. It offers class-leading acoustic performance with extremely low current consumption.

Once installed on to a compatible loop the device is fully addressable and benefits from an extensive range of intelligent functionality, including sounder synchronisation. The unit's integral detector base has easy access for loop cabling and allows for the connection of both the sounder and associated detector via a single set of cable terminations.

KEY FEATURES

- Compatible with standard remote activation
- Eurotech range compatible base
- Selectable tone/volumes via programming tool
- Easy installation and cabling
- Low profile design
- Available in sounder, sounder beacon with white light and sounder beacon with red light options
- Low current consumption
- White ABS FR plastic
- Intelligent performances available on selected range of panels

TECHNICAL SPECIFICATION

Acoustic output frequency range	440 - 2900 MHz
IP rating	21C
Max acoustic intensity	92.6dBA (tones 1-4 only)
Number of Tones	32
Dimensions	129 mm x 44 mm
Weight	210g
Operating Temperature	-10°C to +55°C
Max humidity (non condensing)	95% RH
